Platform Extension
## PL-500X™

✓ **FUNCTION:** Brings the reach of any ServerLIFT unit down to the floor for bottom-rack installations.

✓ **PRECISION:** Platform leveler allows angling of equipment up or down for precise server alignment.

✓ **ERGONOMICS:** Eliminates dangerous back bending or strained lifting.

✓ **EFFICIENCY:** Enables one technician to handle the entire install, reducing the need for extra assistance.

✓ **WEIGHT CAPACITY:** Supports up to 500 pounds (227 kg).

✓ **SAFETY:** Assists with low-rack installs and safely lifts IT equipment out of boxes and off of skids.

✓ **MICRO-LEVELING:** Ensures perfect alignment with both rails or rack posts.

✓ **REACH:** Can reach into corners and against walls for easy installation.
