Effortless Server Move Every Time
GT-1000X Bi-Directional Glide Table

The GT-1000X Glide Table lets you slide servers and switches on or off the ServerLIFT platform for an effortless server move... every time.

Users Love It Because:

✓ No dangerous back bending or strained lifting

✓ No-sweat server unpackaging and leveling

✓ One tech per install, every time

✓ Compatible with all ServerLIFT models

Frictionless Server Movement

The GT-1000X Glide Table allows servers to glide back and forth for frictionless install or removals on either side of an aisle.

✓ Brake handle locks out rollers keeping equipment stationary

✓ Overall dimensions (not including brake handle): 24"L x 14.63"W x 1"H

✓ Fits modularly with all ServerLIFT accessories

✓ 1000 lb (454 kg) capacity*

CE ISO 9001 CERTIFIED COMPANY ISO 14001 CERTIFIED COMPANY
