

Super-Duty Data Center Lift

SL-1000X[®] Powered Lift

Your most versatile solution for daily operations or a data center migration.

With the ServerLIFT SL-1000X tool anyone can safely transport, position and install rack-mounted equipment up to 1,000 lbs. It is the only compact lift built for any data center and their heaviest servers.

- ✓ Eliminates risk of equipment damage and injury
- ✓ One tech per move, every time
- ✓ Powerful, electric lifting motor with included platform micro-positioning
- ✓ Oversized wheels and lock-down brakes make pushing and securing the machine in place for installs simple and easy
- ✓ Operates a full day on one charge

The Best Choice for Heavy Duty Use or Maximum Flexibility.

The only advanced server handling solution of its kind, the SL-1000X data center lift is the most powerful option on the market. From regular refreshes of thin lightweight servers at the top of a cabinet, to occasional installs of heavy 18U switches down at the bottom, the SL-1000X Super Duty lift can handle any rack-mounted device in any situation.

- ✓ 1000 lb (454 kg) lift capacity
- ✓ Lifts and supports servers to over 56U high (8.75 ft or 2.67 m)
- ✓ Side-loading usability for loading parallel to racks on either side of an aisle
- ✓ Optional 1-, 3-, or 5-year Extended Service and Warranty contracts
